The Journal of the KANSAS MEDICAL SOCIETY

INDEX TO VOLUME LXXIX

JANUARY 1978, TO DECEMBER 1978, INCLUSIVE

Published Monthly by

THE KANSAS MEDICAL SOCIETY

AUTHORS

Adams, John 663
Ahmed, I. 670
Altman, Karl 62
Anderson, V. Gary 20
Baeke, Joni 557
Bedard, Charles K. 516
Behbehani, Abbas M. 653
Bigongiari, Lawrence 100, 104
Bogart, Douglas B. 14
Bosiljevac, Joseph E. 194, 211
Brooker, Robert M. 324
Brymer, James 666
Cameron, William J. 322
Carlile, John R. 111
Carrasco, Lenore Casas 55
Cauble, W. G. 247
Cho, Cheng T. 111
Clancy, Richard L. 557
Cody, John 605
Coker, James E. 550
Connelly, John C. 601
Conrardy, Peter A. 488
Corder, Robert 11
Crespo, Merideth 20
Day, Howard 509
Dickerson, Shelby C. 49
Diehl, Antoni M. 115
Dipaling, Salvador 251
Dockhorn, Robert J. 249, 311
Dudding, Burton A. 111
Dunn, Marvin 658, 661
Dworzack, David 550
Eaton, Leslie F. 256
Farber, Barry S. 100
Farha, Adib F. 24
Farha, George J. 503
Ferris, Bruce G. 484
Foret, John 104
Foster, Robert 245
Francis, Anthony 211, 494
Friesen, Stanley R. 193, 214
Gladhart, Stephen C. 20
Goertz, Kenneth 115
Gonzalez-Pardo, Lillian 89
Goodpasture, H. C. 478
Greenberger, Norton J. 257
Guillan, Ramon A. 563, 566
Gumucio, Mario L. 547
Haavik, Sarah 62

Index to Subject Matter

American College of Surgeons issue
abdominal gunshot wounds ... 211
augmentation mammaplasty: fibrous capsular contracture and other complications ... 205
back to basics: as illustrated by famous and infamous medicine men .. 214
deep venous thrombosis: methods of laboratory diagnosis ... 207
ectopic endocrine syndromes ... 193
endocrine surgery: pancreatic islet cell tumor presenting as hyperparathyroidism ... 194
postoperative ileus: gastrointestinal roentgenography during the early postoperative period ... 201
spider angiomata: treatment with sclerosant injections ... 198
urinary tract injury: management of renal and bladder trauma ... 189
Allergy and immunology
adjuvant immunotherapy: treatment of high risk patients with malignant melanoma ... 107
hidden meaning: commonly overlooked allergic disorders ... 55
immunodeficiency: detection of immune deficiency states by the primary care physician ... 311
scratch testing and RAST in the allergic evaluation ... 249
Blood and lymphatics system
acute bacterial meningitis ... 329
adjuvant immunotherapy: treatment of high risk patients with malignant melanoma ... 107
embolic occlusion: transcatheter arterial embolization of renal tumors . 100
frozen red cell transfusions ... 253
hemorrhagic complication: severe thrombocytopenia with subarachnoid hemorrhage in infectious mononucleosis ... 327
Philadelphia chromosome in chronic granulocytic leukemia, the role of the 557
spider angiomata: treatment with sclerosant injections ... 198
Cardiovascular system
acute dissection of an aortic aneurysm in a child with Marfan's syndrome 115
atrial pacing, termination by rapid ... 666
carcinoid heart disease: restrictive cardiomyopathy as a late complication 661
carotid endarterectomy: surgical intervention for the prevention and alleviation of strokes ... 324
deep venous thrombosis: methods of laboratory diagnosis ... 207
embolic occlusion: transcatheter arterial embolization of renal tumors . 100
emergency room management of patients with chest pain ... 658
floppy mitral valve syndrome complicated by *haemophilus parainfluenzae* bacterial endocarditis ... 550
permanent pacemaker: incidence of pacemaker complications ... 49
Prinzmetal angina: long term follow-up after recurrent ventricular arrhythmias ... 14
pulmonary infarction, aseptic cavitary ... 566
scimitar syndrome: surgical considerations ... 547
Swan-Ganz: the rational use of pulmonary artery catheterization ... 488
Case reports
bronchogenic carcinoma, multiple primary ... 563
gout, normouricemic acute polyarticular ... 564
hypothyroidism in coma from status epilepticus precipitated by persistent hyponatremia ... 568
pulmonary infarction, aseptic cavitary ... 566
systemic lupus erythematosus associated with adrenal insufficiency ... 565
T_4 toxicosis in Graves' disease ... 567
Current Comment
acute bacterial meningitis ... 329
chronic hepatitis ... 516
diagnostic approach to the patient with a chronic diarrheal disorder, a . 257
hirsute female, the ... 673
hyperuricemia and gout: eminently treatable disorders ... 614
terminal care needs ... 570
Dermatology
burn update: management of scars and contractures ... 118
spider angiomata: treatment with sclerosant injections ... 198
Emergency care
emergency room management of patients with chest pain ... 658
Endocrine system
hypothyroidism in coma from status epilepticus precipitated by persistent hyponatremia ... 568
short stature: evaluation and diagnosis procedures at KUMC ... 93
systemic lupus erythematosus associated with adrenal insufficiency ... 565
Endocrinology
ectopic endocrine syndromes ... 193
endocrine surgery: pancreatic islet cell tumor presenting as hyperparathyroidism ... 194
hirsute female, the ... 673
hyperthyroidism and periodic paralysis: hypokalemia in a black patient 509
T_4 toxicosis in Graves' disease ... 567
Gastrointestinal system
abdominal gunshot wounds ... 211
appendicitis, report of a case of ... 247
chronic hepatitis ... 516
near painless method of sigmoidoscopy, a ... 256
postoperative ileus: gastrointestinal roentgenography during the early postoperative period ... 201
Genetics
acute dissection of an aortic aneurysm in a child with Marfan's syndrome 115
dwarfism: recent developments in diagnostic and genetic concepts 58
hirsute female, the ... 673
Philadelphia chromosome in chronic granulocytic leukemia, the role of the 557
short stature: evaluation and diagnostic procedures at KUMC ... 93
virus morbidum foetus: congenital malformations and neonatal infections 653
Impaired physician issue
alcoholic physician, the ... 601
bibliography: the impaired physician ... 610
chemical addiction is too a disease ... 608
depression and the healing process ... 598
disadvantages of incorporating ... 618
hyperuricemia and gout: eminently treatable disorders ... 614
involuntary practice closing ... 619
personality vulnerabilities of physicians, some ... 605
Internal medicine
acute bacterial meningitis ... 329
acute dissection of an aortic aneurysm in a child with Marfan's syndrome 115
adjuvant immunotherapy: treatment of high risk patients with malignant melanoma ... 107
atrial pacing, termination by rapid ... 666
carcinoid heart disease: restrictive cardiomyopathy as a late complication 661
carotid endarterectomy: surgical intervention for the prevention and alleviation of strokes ... 324
catecholamine-secreting ganglioneuroma: a surgically correctable cause of hypertension ... 663
chronic hepatitis ... 516
circulatory/respiratory dynamics: continuous vs intermittent ventilation 123
community hospital review: infection following placement of Foley catheters ... 478
deep venous thrombosis: methods of laboratory diagnosis ... 207
diagnostic approach to the patient with a chronic diarrheal disorder, a . 257
embolic occlusion: transcatheter arterial embolization of renal tumors . 100

endocrine surgery: pancreatic islet cell tumor presenting as hyperparathyroidism ... 194
floppy mitral valve syndrome complicated by *haemophilus parainfluenzae* bacterial endocarditis ... 550
gout, normouricemic acute polyarticular ... 564
headache clinic functions: the search for some answers ... 98
hemiplegia: a case of unusual etiology ... 17
hemorrhagic complications: severe thrombocytopenia with subarachnoid hemorrhage in infectious mononucleosis ... 327
hyperthyroidism and periodic paralysis: hypokalemia in a black patient ... 509
hyperuricemia and gout: eminently treatable disorders ... 614
hypothyroidism in coma from status epilepticus precipitated by persistent hyponatremia ... 568
near painless method of sigmoidoscopy, a ... 256
oxygen toxicity ... 498
percutaneous nephrostomy: a non-operative temporary or long-term urinary diversion procedure ... 104
permanent pacemaker: incidence of pacemaker complications ... 49
Philadelphia chromosome in chronic granulocytic leukemia, the role of the ... 557
Prinzmetal angina: long term follow-up after recurrent ventricular arrhythmias ... 14
pulmonary infarction, aseptic cavitary ... 566
pulmonary microembolism: respiratory failure and pancreatitis ... 251
scimitar syndrome: surgical considerations ... 547
spider angiomata: treatment with sclerosant injections ... 198
Swan-Ganz: the rational use of pulmonary artery catheterization ... 488
systemic lupus erythematosus associated with adrenal insufficiency ... 565
T_4 toxicosis in Graves' disease ... 567

Medical history
back to basics: as illustrated by famous and infamous medicine men ... 214

Musculo-skeletal system
clinical electromyography ... 317
dwarfism: recent developments in diagnostic and genetic concepts ... 58
gout, normouricemic acute polyarticular ... 564
hyperuricemia and gout: eminently treatable disorders ... 614
infantile osteomyelitis, rare: report of a case involving the ribs ... 507
PMMA: treatment of pathological fractures using methylcrylate to enhance strength of internal fixation ... 511
short statute: evaluation and diagnosis procedures at KUMC ... 93

Nervous system
acute bacterial meningitis ... 329
clinical electromyography ... 317
headache clinic functions: the search for some answers ... 98
hemiplegia: a case of unusual etiology ... 17
hypothyroidism in coma from status epilepticus precipitated by persistent hyponatremia ... 568
transient global amnesia: report of a case secondary to bilateral middle cerebral artery involvement ... 670

Neurology
clinical electromyography ... 317
hemiplegia: a case of unusual etiology ... 17
hyperthyroidism and periodic paralysis: hypokalemia in a black patient ... 509
hypothyroidism in coma from status epilepticus precipitated by persistent hyponatremia ... 568
transient global amnesia: report of a case secondary to bilateral middle cerebral artery involvement ... 670

Obstetrics and gynecology
hirsute female, the ... 673
hydatidiform mole: a case with coexistent fetus ... 11
virus morbidum foetus: congenital malformation and neonatal infections ... 653
yeast vaginitis: Nystatin vs Monistat in treatment of vaginal candidiasis ... 322

Oncology
adjuvant immunotherapy: treatment of high risk patients with malignant melanoma ... 107
bronchogenic carcinoma, multiple primary ... 563
carcinoid heart disease: restrictive cardiomyopathy as a late complication ... 661
ectopic endocrine syndromes ... 193
embolic occlusion: transcatheter arterial embolization of renal tumors ... 100
endocrine surgery: pancreatic islet cell tumor presenting as hyperparathyroidism ... 194
head and neck cancer ... 553
hemiplegia: a case of unusual etiology ... 17
PMMA: treatment of pathological fractures using methylcrylate to enhance strength of internal fixation ... 511

Orthopedics
PMMA: treatment of pathological fractures using methylcrylate to enhance strength of internal fixation ... 511

Otolaryngology
Castleman's disease: surgical management of the head and neck ... 502

Pathology and laboratory medicine
Castleman's disease: surgical management of the head and neck ... 502
deep venous thrombosis: methods of laboratory diagnosis ... 207
frozen red cell transfusions ... 253
immunodeficiency: detection of immune deficiency states by the primary care physician ... 311
pulmonary microembolism: respiratory failure and pancreatitis ... 251

Pediatrics
acute dissection of an aortic aneurysm in a child with Marfan's syndrome ... 115
analgesic agents: a spectrum of pediatric criteria ... 494
critical care of the pediatric patient ... 121
developmental disabilities clinic: a multidisciplinary approach for handicapped children ... 89
immunodeficiency: detection of immune deficiency states by the primary care physician ... 311
infantile osteomyelitis, rare: report of a case involving the ribs ... 507
measles and measles immunization ... 111
retarded children: an update for physicians on program alternatives ... 62
virus morbidum foetus: congenital malformations and neonatal infections ... 653

Pharmacology, therapeutics and toxicology
analgesic agents: a spectrum of pediatric criteria ... 494
chemical addiction is too a disease ... 608
oxygen toxicity ... 498
spider angiomata: treatment with sclerosant injections ... 198
T_4 toxicosis in Graves' disease ... 567
yeast vaginitis: Nystatin vs Monistat in treatment of vaginal candidiasis ... 322

Physiology
circulatory/respiratory dynamics: continuous vs intermittent ventilation ... 123

Preventive medicine
alcoholic physician, the ... 601
chemical addiction is too a disease ... 608
depression and the healing process ... 598
hidden meaning: commonly overlooked allergic disorders ... 55
measles and measles immunization ... 111
personality vulnerabilities of physicians, some ... 605

Psychiatry and psychology
alcoholic physician, the ... 601
chemical addiction is too a disease ... 608
depression and the healing process ... 598
developmental disabilities clinic: a multidisciplinary approach for handicapped children ... 89
headache clinic functions: the search for some answers ... 98
personality vulnerabilities of physicians, some ... 605
retarded children: an update for physicians on program alternatives ... 62
transient global amnesia: report of a case secondary to bilateral middle cerebral artery involvement ... 670

Public health
measles and measles immunization ... 111

Radiology
deep venous thrombosis: methods of laboratory diagnosis ... 207
postoperative ileus: gastrointestinal roentgenography during the early postoperative period ... 201
urinary tract injury: management of renal and bladder trauma ... 189

Reproductive system
hydatidiform mole: a case with coexistent fetus ... 11
yeast vaginitis: Nystatin vs Monistat in treatment of vaginal candidiasis ... 322

Respiratory system
bronchogenic carcinoma, multiple primary ... 563
circulatory/respiratory dynamics: continuous vs intermittent ventilation ... 123
oxygen toxicity ... 498
pulmonary infarction, aseptic cavitary ... 566
pulmonary microembolism: respiratory failure and pancreatitis ... 251
scimitar syndrome: surgical considerations ... 547

Skin and appendages
augmentation mammaplasty: fibrous capsular contracture and other complications ... 205
breast surgery: current concepts in augmentation ... 484
burn update: management of scars and contractures ... 118
scratch testing and RAST in the allergic evaluation ... 249

Socio-economic medicine and health care delivery
advantages of incorporating: fringe benefit programs ... 574
alcoholic physician, the ... 601
chemical addiction is too a disease ... 608
critical care of the pediatric patient ... 121
depression and the healing process ... 598
developmental disabilities clinic: a multidisciplinary approach for handicapped children ... 89
disadvantages of incorporating ... 618
elements of decision: why physicians practice where they do — a review ... 24
estate tax considerations when incorporating ... 678
headache clinic functions: the search for some answers ... 98
how to make your collection calls work ... 218
how to start to stop ... 522
involuntary practice closing ... 619
management consultants: Rx for an ailing practice ... 679
personality vulnerabilities of physicians, some ... 605
physician assistant: breaking ground in Topeka ... 66
profile: the physician's assistant in Kansas ... 20
retirement plans: self-employed vs corporate ... 520
terminal care needs ... 570

Special senses
analgesic agents: a spectrum of pediatric criteria ... 494
Castleman's disease: surgical management of the head and neck ... 502
systemic lupus erythematosus associated with adrenal insufficiency ... 565
T_4 toxicosis in Graves' disease ... 567
terminal care needs ... 570
virus morbidum foetus: congenital malformations and neonatal infections ... 653

Surgery
abdominal gunshot wounds ... 211
acute dissection of an aortic aneurysm in a child with Marfan's syndrome ... 115
adjuvant immunotherapy: treatment of high risk patients with malignant melanoma ... 107
appendicitis, report of a case ... 247
augmentation mammaplasty: fibrous capsular contracture and other complications ... 205

breast surgery: current concepts in augmentation 484
burn update: management of scars and contractures 118
carotid endarterectomy: surgical intervention for the prevention and alleviation of strokes 324
Castelman's disease: surgical management of the head and neck 502
catecholamine-secreting ganglioneuroma: a surgically correctable cause of hypertension 663
endocrine surgery: pancreatic islet cell tumor presenting as hyperparathyroidism 194
head and neck cancer 553
infantile osteomyelitis, rare: report of a case involving the ribs 507
postoperative ileus: gastrointestinal roentgenography during the early postoperative period 201
scimitar syndrome: surgical considerations 547
urinary tract injury: management of renal and bladder trauma 189
UKSM-Kansas City issue
acute dissection of an aortic aneurysm in a child with Marfan's syndrome 115
adjuvant immunotherapy: treatment of high risk patients with malignant melanoma 107
burn update: management of scars and contractures 118
circulatory/respiratory dynamics: continuous vs intermittent ventilation 123
critical care of the pediatric patient 121
developmental disabilities clinic: a multidisciplinary approach for handicapped children 89
embolic occlusion: transcatheter arterial embolization of renal tumors . 100
headache clinic functions: the search for some answers 98
measles and measles immunization 111
percutaneous nephrostomy: a non-operative temporary or long-term urinary diversion procedure 104
short stature: evaluation and diagnosis procedures at KUMC 93
UKSM-Wichita issue
analgesic agents: a spectrum of pediatric criteria 494
breast surgery: current concepts in augmentation 484
Castleman's disease: surgical management of the head and neck 502
chronic hepatitis 516
community hospital review: infection following placement of Foley catheters 478
how to start to stop 522
hyperthyroidism and periodic paralysis: hypokalemia in a black patient 509
infantile myelitis, rare: report of a case involving the ribs 507
oxygen toxicity 498
PMMA: treatment of pathological fractures using methylcrylate to enhance strength of internal fixation 511
retirement plans: self-employed vs corporate 520
Swan-Ganz: the rational use of pulmonary artery catheterization 488
Urinary system
catecholamine-secreting ganglioneuroma: a surgically correctable cause of hypertension 663
community hospital review: infection following placement of Foley catheters 478
embolic occlusion: transcatheter arterial embolization of renal tumors . 100
percutaneous nephrostomy: a non-operative temporary or long-term urinary diversion procedure 104
posterior urethral injuries: procedural evaluation and management 245
urinary tract injury: management of renal and bladder trauma 189
Urology
community hospital review: infection following placement of Foley catheters 478
percutaneous nephrostomy: a non-operative temporary or long-term urinary diversion procedure 104
posterior urethral injuries: procedural evaluation and management 245

THE MENNINGER FOUNDATION

Continuing Medical Education

Psychiatric Aspects of Aging: Jan. 5 - 6, 1979. Directed by William Tarnower, M.D.

Introductory Hypnotherapy and Hypnoanalysis: Jan. 11 - 14, 1979. Directed by Erika Fromm, Ph.D.

Transactional Analysis: Jan. 26 - 27, 1979. Directed by John J. O'Hearne, M.D.

Liaison and Consultation: Jan. 29 - 30, 1979. Directed by Robert O. Pasnau, M.D.

Leisure/Recreation and Mental Health: Mar. 1 - 2, 1979. Directed by Ken Dugan.

Borderline and Narcissistic Disorders: Mar. 3 - 10, 1979. Directed by Normund Wong, M.D. To be held in Vail, Colorado.

Helping People Retire: Growing Into Fullfillment: Mar. 22, 1979. Directed by Basil Cole.

CME credit available.
